

Marisa Clery

Special Consultant

Summary of Experience

Marisa Clery provides economic analysis and advisory support for litigation and arbitration matters involving economic and regulatory issues. She has contributed to projects in the United States, Puerto Rico, Brazil, Ecuador, Mexico, and Tunisia. As part of these projects, she has applied both quantitative and conceptual knowledge in English and Spanish to cases involving regulated industries, such as the dairy, banking, and energy industries. She is trained in data analysis using Stata as well as Microsoft Excel.

Ms. Clery graduated magna cum laude from Georgetown University with a B.S. of Foreign Service in International Political Economy and a certificate in Latin American Studies. She is currently pursuing an M.S. in Economics from Purdue University's Krannert School of Management.

Experience

- Conducted research and economic analysis for the milk industry in Puerto Rico on behalf of a fresh milk processing plant, including research in support of legal filings and analysis of wrong incentives given by the milk industry regulatory framework. Maintained databases to track milk production and sales as well as the repayment of a multi-million dollar consumer debt and performed calculations to ensure compliance with regulatory requirements.
- Determined the regulated margin for fresh milk processing plants in Puerto Rico and implemented regulatory accounting standards.
- Assessed the damages based on disgorgement of profits allegedly owed by a fresh milk processing plant to a class of fresh milk consumers in Puerto Rico in a class action lawsuit.
- Provided initial support in benchmarking analysis to compare the efficiency of various Caribbean electric utilities.
- Performed research and econometric analysis to evaluate of the price elasticity of demand for small displacement vehicles in Mexico.
- Assessed the damages based on alleged breaches of an exclusive distribution agreement for a fragrances and cosmetics distributor in Brazil.

- Analyzed the impact on consumer prices of the entry of a new product into the gasoline market in Puerto Rico using Stata.
- Assessed damages from expropriation, lack of fair and equitable treatment, and denial of justice in an investment in the banking industry in North Africa.
- Calculated the damages due to a breach of contract for the provision of a sea water desalinization plant in Ecuador.
- Provided research and written contributions to a textbook on regulatory economics.
